ADVANTAGES

ENVIRONMENT

Compact PET felt composed of 50% recycled fibres from plastic bottles.

INSPIRED BY NATURE

- 3 models of leaves in 3 sizes: S,M,L
- 8 formats to coordinate to customise your acoustic decor
- 15 colours and multiple combinations

STYLISH AND FUNCTIONAL FIXINGS

- 3 in 1 sling : aesthetic, simple and easy to fix to the ceiling, easy to tilt the panel
- Rotating 3D arm to give the leaves movement and make them airborne

LED LIGHTING

- Installation of flexible neon LED
- Creating decorative veining
- Adds to the lighting and ambiance of the space
- Ready-to-install lighting

CUSTOMISED SHAPES

Customise your acoustic panels ! Our workshop can cut your own shapes for walls or ceilings

A HIGH-PERFORMANCE PRODUCT

- α_w 0.40 - 0.85 / NRC 0.6 - 0.8, depending on the set-up
- 🔥 Excellent fire-rating B s2 d0
- 🔪 Shock-resistant
- 🧼 Care : cleaning using a vacuum and a damp cloth. Carpet cleaning products may be used for stubborn stains.

Slimpanel

Compact felt acoustic panels

Available in 6 rectangular or square formats with rounded corners they are fixed using rails, 30mm from the wall to allow the use of back-lighting and the improve acoustic performance thanks to the plenum.

When ceiling-mounted they are suspended by 4 adjustable cables to change the height, add style to your look and blend into the decor with the optional black or white cables.

As well as being decorative acoustic absorbents, these felt panels have a double functionality : the baffles and islands can be transformed into acoustic lighting specially desired to fulfill certain criteria : lighting, energizing, signposting or decorating a space. Luminous strips and LED backlighting with transformers, long-lasting and using very low amounts of energy are directly mounted on the panels in the workshop to ensure easy and safe installation.

SLIMWALL

Compact felt objects

The SlimPanel acoustic solutions efficiently absorb sound waves, and contribute towards the reduction of the noise level, improving the users' comfort. The advantages due to the quality of the polyester compact-felt absorbent are multiple depending on the location : conversing easily in a restaurant, improving intelligibility of speech, rendering the surrounding muted and private to guarantee concentration in a workplace. SlimPanel offers a large range of acoustic solution to suit each project, depending on the layout, the desired style and the acoustic improvement required. Light and compact, each product in the range is quick and easy to install, on walls, ceilings or floors. Products specifically designs for public buildings : offices and administrations, restaurants, hotels, reception areas, institutions, schools and sports halls, businesses.

SLIMPANEL TOTEM

Slimcolor

SlimColor is a slim line compact-felt acoustic absorbent, ecologically designed using recycling plastic bottles. Its range of 15 colours is composed of essentials and accent colours to create multiple combinations. From light and natural shades for muted looks and bright energetic colours to energize the surroundings. The excellent shock and scratch-resistance of these decorative absorbent makes it a long-term solution for all public buildings. Its 10% polyester composition is suitable for use in damp environments. Its high fire-rating B s2 d0 meets the more stringent safety requirements. Its Oeko-tex labels guarantees that the product does not contain harmful chemicals.
